Hi Mike, my manager just had her check in call with the state so this is some up to date info:  
Public comment on ORU-2 Permit mod has ended, 200 or so comments received, included comments from Yakama, CRITFC, Professor Saul, several NGOs.

Thanks – can you remind me what the status is on the permit mod? Is the comment period still open?

Here are two other comment letters regarding the facility. We are very concerned about treating this facility as exempt as a recycling operation. There is no monitoring of what is coming into the facility nor what is being emitted by the stacks.
